[www.usercentricmedia.org](http://www.usercentricmedia.org)

**NOVOTEL VENEZIA MESTRE, DEC. 9-11, 2009:**

## CALL FOR PARTICIPATION:

This conference seeks to improve our understanding of the changing landscape of media. It has a particular focus on forms of media that are user centered and on the way they will be delivered over a Future Media Internet. The UCMedia conference will support inventive and creative practices in the arts, in science, in engineering and in business by encouraging publications that will help us to understand, to predict and to enable trends in media that are related to:

- \* overwhelming volumes of content
- \* user generated content
- \* changing distribution mechanisms
- \* changing representations of media
